Terminix Drone Solutions

Terminix Drone Solution operates throughout the UK and works for a wide range of industry sectors.

Drones reduce the health and safety risk of working at height, provide high resolution photographic evidence and enable speedy identification of pests and other building issues.

Our Surveys Cover:

- Roof & Net Inspections
- High or Inaccessible Buildings
- Blocked Gutter Identification
- Wildlife Monitoring
- Heat Loss Identification
- Solar Panel Inspections

Benefits

- Reduced Health & Safety Risks
- Lower Inspection Costs
- Speed & Clarity of Inspection Reports
- Low Monitoring Costs
- Thermal Cost Reduction
- Assurance of CAA Accredited Pilots

Our new technology enables us to provide our clients with a more comprehensive and flexible service with the ability to recommend solutions in real-time and provide comprehensive online reports.
